 - (F) LIFT : 1 passenger lift ("Kone" or equivalent) from 1st to 8th Storey.
 - (G) INTERCOM : Audio intercom to apartments.

Footnote:

1) Marble, Limestone and Granite:

Marble, limestone and granite are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble, limestone or granite as well as non-uniformity between pieces cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However granite, being a much harder material than marble cannot be re-polished after installation. Hence some differences may be felt at the joints. The tonality and pattern of the marble, limestone or granite selected and installed shall be subject to availability.

2) Timber:

Timber is a natural material containing veins and tonal differences. Thus it is not possible to achieve total consistency of colour and grain in their selection and installation. Timber is also subject to thermal expansion and contraction beyond the control of builder and Vendor. Natural timber that is used outdoors will become bleached due to sunlight and rain. Thus, the cycle of maintenance on staining will need to be increased as required. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clause 10 and clause 17.

3) Materials, Fittings, Equipment, Finishes, Installations and Appliances:

The brand, colour and model of all materials, fittings, equipment, finishes, installations and appliances supplied shall be provided subject to Architect's selection, market availability and the sole discretion of the Vendor.

4) Television and/or Internet Access:

The Purchaser is liable to pay annual fee, subscription fee and such other fees to the television and/or internet service providers or any other relevant party or any relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their respective channels and/ or internet access.

5) Air-conditioning system:

To ensure good working condition of the air-conditioning system, the system has to be maintained and cleaned on a regular basis by the Purchaser. This includes the cleaning of filters, clearing the condensate pipes and charging of gas. The Purchaser is advised to engage his/her own contractor to service the air-conditioning system regularly.

6) Wardrobes, Kitchen Cabinets, Fan Coil Units, Electrical Points, Door Swing Positions and Plaster Ceiling Boards:

Layout/Location of wardrobes, kitchen cabinets, fan coil units, electrical points, door swing positions and plaster ceiling boards are subject to Architect's sole discretion and final design.

7) Warranties :

Where warranties are given by the manufacturers and/or contractors and/or /suppliers of any of the equipment and/or appliances installed by the Vendor at the unit, the Vendor shall assign to the Purchaser such warranties at the time when possession of the Unit is delivered to the Purchaser.

8) Purpose of Building Projects and Restriction as to Use :

The building project is strictly for residential occupation only. Private car parks are provided. The open roof terrace/PES is not to be enclosed or roofed over.

9) Mechanized Car Parking Lots

The maintenance of the mechanized carpark will be managed by the Property Management Service Provider using the maintenance fund collected every month. This maintenance fund shall be used only for the maintenance of the mechanized carpark system arising out of normal usage. It does not cover any damages or defects caused by unauthorized usage and/or misuse of the mechanized carpark system.
